
seq 22 reishi_id901_ch1_461s: the recording's cycles; black = the oscillatory FHN fit
recorded cycles in delay coordinates, coloured by cycle phase (hsv)
paper's delay: delta = 0.1 s = 0.34 model units
quarter cycle: delta = 0.5 s = 1.7 model units
fitted FHN, mapped to mV
V(t), mV (detrended)
V(t - delta), mV (detrended)
